

RESPONSIBLE PACKAGING MANAGEMENT ASSOCIATION OF SOUTHERN AFRICA

SUPPORT A HAPPY DRUM - SAVE A LIFE

Every day, week, month poor people in our country – with no direct access to clean drinking water, buy and carry used, often contaminated drums for drinking water and other domestic use.

Health risks – skin burns, chest problems and poisonings – are common as well as environmental pollution.

You can make a difference.

Sponsor a Happy Drum is an RPMASA initiative to support the Ethekwini Municipality's "Umgqomo Ophephile" Safe Drums Project, to stop the high number of contaminated drums traded on the streets and instead to provide virgin drums to the informal traders and the poorest of the poor.

Sponsorships from R250 for a 210l drum (or 8 x 20l) for individuals and from R1000 for organisations will be appreciated as we need many thousands to make this sustainable. Sponsors, both companies and individuals, are listed on the RPMASA website with our thanks.

Drums for this project will be pink or natural, they MUST have the logo and wording embedded or printed on them for clear identity.

This will assist the authorities to stop the trade in used, contaminated drums and prevent them being sold for other purposes.

Sponsor a Happy Drum and save a life - A win, win, win for the poor, sponsors and the environment. Contact RPMASA on +27 (0) 32 942 8256 or liz@rpmasa.org.za
