| 12 00 – 13 00 | The Waste Act requires EPR - Where do your drums go?<br>Questions and discussion – opportunity to question the regulators  |

Industrial packaging is a resource too good to waste - how should Industry co-ordinate a national EPR solution for used Industrial packaging – e.g Industry green levy on each unit to help educate, facilitate take back and verify compliance, a deposit system by each product manufacturer or what?? Share your ideas to ensure collection for safe re-use and reduce waste of this valuable resource.
